Why St. Ambrose?

St. Ambrose is the place to study and put a smile on your kid's faces. There are many reasons but I believe that having friends and nice teachers are the reasons that I go to St. Ambrose.

My first reason is that the kids here are very kind. I have been to eight other schools in my life and St. Ambrose is the one that has the most comforting and understanding people you could be around.

My second reason is I am one of the people who attend Morning and Aftercare every day. It is even better than recess. You are allowed to bring electronics to Morning and Aftercare. For other entertainment there are board games, Legos, littlest pet shops, and much more. If you're the kind of person that likes sports and running around this is for you. If there is bad weather there is a whole gym to run around in. The gym has basketball hoops. If it is nice out there is a field and a playground to run around and play games at.

Out of all my eight schools being at St. Ambrose has been the most exciting and grade rising of them all.
